

Residents against Eastside Men's Shelter

This petition is to have your say against the development of a Homeless Shelter on the King County property located at 14350 SE Eastgate Way Bellevue, WA.

This petition is to have your say against the development of a Homeless Shelter on the King County property located at 14350 SE Eastgate Way Bellevue, WA.

The location raises a number of concerns in our community:

1. Per section 5 of FAQ - Site Location ([FAQ - Site Location](#)) one of the factors taken into consideration for selecting the Eastside Men's Shelter is avoiding single family residential areas. The fact that town home condos occupied by hundreds of families many with young children are located within a few hundred feet of the proposed facility should be considered in the selection of the site.
2. Impact of property value. Eastgate is a prosper neighborhoods and without any doubt addition of the shelter is going to have adverse impact on property value. Per realtor.com homeless shelter can drag down property values by 12% ([The Neighborhood Features That Drag Down Your Home Value](#))
3. The proposed shelter, will be a low barrier shelter and will accommodate people with mental health, addiction and sex offenses. In addition to our concerns for the safety of the residents of the neighborhood, we are concerned for the safety of the students of Bellevue College. Every year more than 30,000 students, majority female and as young as 16 years of age enroll in Bellevue College which is located within a few hundred feet of the proposed site. We believe such a close proximity puts the safety of the students at risk.

Birgit Hansen	Bellevue, WA	2016-10-03	I share the views indicated in this petition and I am a nearby home owner of a town house condo.
Sue Israel	Bellevue, WA	2016-10-03	I am signing because I have two granddaughters attending Bellevue College and don't think a Men's Shelter should be that close to a College and Park and Ride.
Carol Janssen	Bellevue, WA	2016-10-04	I don't believe this is the right location for this shelter. Bellevue has not done sufficient planning for this and no consideration was given to the Bellevue College students as well as the hundreds of residents surrounding this area. Safety is a major concern as this was never discussed when coming up with this location.
Peter Kim	Bellevue, WA	2016-10-04	The project committee was asked why the shelter was men only. They said families and women shelter users didn't feel safe when these shelters were combined, but still insisted Bellevue College students and nearby residents were going to be safe....
Amy Li	Bellevue, WA	2016-10-05	I don't feel safe. There are kids and elderly people who live here.
Maria Dykstra	Bellevue, WA	2016-10-05	It is in the close proximity to the college and schools
Tachung Chen	Bellevue, WA	2016-10-05	For the safety of our community, we should not take any risk.
Bozenna Lloyd	Bellevue, WA	2016-10-05	I'm very concerned about my safety. I experienced first hand homeless men aggression towards myself. I don't want my children to experience the same.
Matt Dykstra	Bellevue, WA	2016-10-05	<p>The proposed men's shelter is set to be located next to Bellevue College where over 50% of the students are female, an Elementary School with children as young 4 & 5 yrs old, at least one day care & town homes which are filled with young college families with small kids .</p> <p>Yes, it is the right thing to help those who need help. But placing a low barrier men's shelter which is open to convicted sex offenders, individuals with addictions & mental health issues without regard to the safety of our young children & college students is not the solution. The county, city & state can surely find a location that is still near the bus line, away from our kids & closer to the facilities these individuals need to get themselves back on track.</p>
Jun Liu	Bellevue, WA	2016-10-05	I am concerned with having a homeless shelter near Eastgate P&R. Safety is my top concern.
Molin Lo	Bellevue, WA	2016-10-05	I don't feel safe because the shelter is only a 2 minute walk from my home.
Nina MacGarva	Bellevue, WA	2016-10-05	I do not support a men's homeless shelter close to my residential community! It makes me feel very unsafe.

Julia Tel	Bellevue, WA	2016-10-05	<p>I request the Council to drop Eastgate as the site for the permanent homeless men shelter and direct the City staff to identify an alternate site in a commercial area. Eastgate is a poor selection because:</p> <p>The City is ignoring the 200+ townhome/condo households that are just couple minutes (walk) from the site. When our HOA met with the City staff, they admitted that as part of the site selection the staff did not walk through the nearby townhome/condo communities. If they had they would have found out Sunset Ridge, Madrona, and Seasons are all connected and within minutes walk to the P&R. The map that the City staff presented to the Council excluded these residential communities.</p> <p>The homes in the above three communities were built in the late 1990's. Unlike the newer high density townhouse/condo communities, the units are riot secured.</p> <p>The City is ignoring the hundreds of international students that will be housed in the new Bellevue College dorms.</p> <p>The City is ignoring the 1600+ daily users of the P&R. Instead to conducting outreach to the affected P&R users, the City talked to the Sound Transit body. Despite request to post alerts at the P&R to inform users about the proposed shelter, <i>the</i> City staff has not taken such action. As a result, an important group of affected stakeholders are not informed and is unaware of the negative impact on them.</p> <p>The City has not fully thought out the impact of placing sex offenders, addicts, and mentally ill so close to existing residential neighborhood. Where are these men going to go between 8 a.m. and 8 p.m.? The City has no control on their actions and whereabouts when they leave the shelter. As a result, nearby residents' safety and security would be potentially jeopardized.</p>
Marian Monwai	Bellevue, WA	2016-10-05	<p>[just moved to Factoria 3 months ago, if I have known there will be a Homeless Shelter for men at Eastgate, I would never make my move.</p>
Susanna Chung	Bellevue, WA	2016-10-05	<p>In addition to concurring with the comments regarding safety concerns and disregard for the townhome/condo, commuter and foreign/female student communities, i submit that serious consideration should be given to identifying Bellevue City Hall (developing space above the garage) as a candidate for evaluation instead. The site is surrounded by commercial buildings as well as secured high density multi-unit residential buildings that are better fit. The same can be said of the infrastructure requirements specified in the selection criteria.</p>
Rollin Henry	Renton, WA	2016-10-06	<p>I am an offsite owner of one of the units in Harmony. This is unacceptable for having a homeless shelter built so close to residential area. If city council continues with the proposed plan, I will have a lawyer file a class action lawsuit.</p>
Teresa Mordaunt	Bellevue, WA	2016-10-06	<p>I want the children and their families in our community to be safe and free of the fear of sexual offenders who may be residing in this shelter.</p>
Lucy Liu	Bellevue, WA	2016-10-06	<p>against the development of a Homeless Shelter on the King County property located at 14350 SE Eastgate Way Bellevue, WA.</p>
Yun Xiang	Bellevue, WA	2016-10-06	<p>For my own safety.</p>
yali bai	Kirkland, WA	2016-10-07	<p>I am concerned about the safety of BC students.</p>
Vadim Doktorovich	Bellevue, WA	2016-10-08	<p>I don't want to have any shelter in my neighborhood</p>
Elsie Ling	Bellevue, WA	2016-10-08	<p>Don't make Eastgate the dumping ground. The City of Bellevue could try harder to find other locations that would not impact the safety concerns of the residents in the Eastgate neighborhood. Maybe it should be near Medina to allow the well off citizens understand the plights of homelessness.</p>

Carolyn Conover	Bellevue, WA	2016-10-08	We should have more say in what goes into our own neighborhoods as tax payers.
Mauren Olsen	Bellevue, WA	2016-10-09	The proposed site of the men's homeless shelter is an incredibly irresponsible location. Although the very thin strip of land may be commercial/industrial it backs directly up to Bellevue College and even has a sidewalk ramp that would allow the men easy access to BC as well as condos and Bellevue Christian School and Big Picture School are within walking distance along with residential neighborhoods all within walking distance. This area is too densely populated with families, students and hard working people to be able to support a men's homeless shelter that would house mentally ill men and sex offenders. It will draw more homeless to the area than ever before. With all the wooded areas, this is very irresponsible of the the city. Soon, no one will be able to walk the trails in safety and men will be camped out all through the area and behind our homes. One only has to take a look under the highway in Seattle (The Jungle) to see the future of the area if this shelter is built. The Jungle has become a haven for rape, prostitution, drugs and murder. I propose the site be in a real industrial section over by the Coke plant (spring district) or outside of Bellevue all together so that our residential areas are insulated from the fall out. Why not build it in Kent or Tukwilla where crime is already high. Why ruin our safe little community where middle class have worked so hard to build a life for their families.
Sathish K Ravichandran	Seattle, WA	2016-10-09	I want my neighborhood to be safe.
Kathy Sibley	Bellevue, WA	2016-10-09	I do not want homeless people near my home.
Jeffrey Goodis	Bellevue, WA	2016-10-09	I believe that this approach will only serve to enable and encourage the lifestyle and behavior which is counterproductive to your goals.
Philip Chan	Bellevue, WA	2016-10-09	<p>I am against the development of a Homeless Shelter on the King County property located at 14350 SE Eastgate Way Bellevue, WA. The site selection is irresponsible, fails the criteria Bellevue has set for the site selection. The existing publication is misleading and contradicts itself and shows that the site is selected with false information.</p> <p>As I quote from http://bellevuewa.gov/pdf/Parks/mens_homeless_shelter_FAQs.pdf, "The site is located in a non-residential area of Eastgate in Bellevue, just north of 1-90 ..." The statement is incorrect. The site is within 5 minutes walking distance from 230+ residential townhome households, as well as Bellevue college where student residences are being built. In fact this statement also contradicts "5. Why here?" section in the very same document, which states one factor of consideration is to "Avoid single family residential areas."</p> <p>What exactly is city of Bellevue trying to say? Townhomes and college residences are not considered residential to Bellevue, or only single family residences matter? Or in order to get consideration, existing residential areas are conveniently ignored (in 1 section) or obfuscated (in another section) in public documentation?</p> <p>The fact that a single document includes such contradiction is disappointing and shows the recklessness of the selection process.</p>

Gary Kline	Bellevue, WA	2016-10-09	I have not heard a serious plan that would insure that this would not act as a magnet for increased numbers of homeless populations living in our neighborhoods. Also there is absolutely no screening for illegal citizen status.
Stef Storseth	Bellevue, WA	2016-10-09	This poses tremendous safety risks for our neighborhood and likelihood of increased crime.
Jacintha Sayed	Bellevue, WA	2016-10-09	I am concerned about the safety of women and children in the area if we have clients in the shelter that suffer from mental illness or have a criminal records. It does not sound like there is a plan to ensure the safety of neighborhood residents outside of shelter hours.
Andrei Kiselyov	Bellevue, WA	2016-10-10	It's a very bad idea to have a homeless shelter near the Bellevue College
Minmin Jiang	Bellevue, WA	2016-10-10	I'm signing because safety issue might happen to young children nearby and students in Bellevue College.
IULIA GEORG IU	Bellevue, WA	2016-10-10	I am all for safety for children and women
Mary Parks	Bellevue, WA	2016-10-10	I have to daughters and property values
Tom Perea	Bellevue, WA	2016-10-10	As the owner of a preschool in close proximity to the proposed site I am afraid for the safety for our students, parents and teachers.
Gemma Aranda	Bellevue, WA	2016-10-10	I believe that issues/ concerns raised by the community are warranted . As a nurse practicing for 21 years in Critical care unit , I had known .this patients/ individual population. I am concerned too with the neighborhood safety . This people with serious health and behavior concerns has to be in an appropriate area where they can proper heal and properly taken care of by well trained staff . Otherwise , their healing process will be hampered and remission occurs . And for the meantime, the community people are at risk of exposure when their manic episodes happens . One of the reason why Eastgate Community is a good place to live is because we continuously seek to make wise decision , wise judgement of our behavior. We can still be helpful and compassionate of this homeless people by contributing / donating (even some of our tax) towards welfare in a appropriate shelter for their healing .
Eric Landgraf	Bellevue, WA	2016-10-10	I don't think it's a good location for a men's shelter.

Derek A	Bellevue, WA	2016-10-10	<p>Lake Hills is a residential area highly concentrated with young families and children. The area also lacks a significant volume of job opportunities for the people who might live here in order for them to restart their lives. This type of shelter belongs in an urban area where job opportunities and support services exist and where young children and students will not be as present. People with young families and children move to suburban areas like Lake Hills precisely to avoid this population. Further, having a shelter in an area where the shelter residents are not likely to find affordable housing and employment once they are ready to leave the shelter just means further volatility for those living in the shelter as they will have to move to another area once they leave the shelter. As such, it makes more sense to put a shelter in a place where relevant employment opportunities, and affordable housing, exist.</p> <p>As for the issue of property values I can assure you they will go down if this shelter locates here because existing homeowners will move to safer neighborhoods, new buyers will avoid this neighborhood, and developers will now avoid this area and the shelter will impact the marketability of their projects. This is less of an issue in an urban area where residents expect to find this type of facility.</p>
Wing Lee	Bellevue, WA	2016-10-10	<p>With all the wise people in the city government, how could they end up proposing to locate a men's shelter next to Eastgate P&R?! Common sense tells the shelter should be located next to City Hall. It is far more conducive to commuting - Bellevue Transit Center is just a few steps away and has more bus routes than Eastgate P&R. Don't forget Light Rail is coming in 2023! For those attending Bellevue College, Metro route 271 goes right inside the campus every 7 to 15 minutes from the BTC. There would be no hill climbing from Eastgate P&R. For health care services, Overlake Hospital is within walking distance 24/7. Everyone should know that Downtown Bellevue has many more job openings and opportunities than the Eastgate P&R area creating the targeted goal of a livable and walkable community. As far as public safety concern, Bellevue police is right there next door. Homelessness is an urgent need; the City and County can easily put up 100 beds that they propose in any newly built apartments building in downtown Bellevue. There is no waiting and no need to spend millions of dollars to build new infrastructure.</p>
Linda McCarthy	Bellevue, WA	2016-10-10	I am opposed to having a homeless men's shelter in my neighborhood.
Andrei Kiselyov	Bellevue, WA	2016-10-10	<p>I think the decision of the Bellevue city council to build a homeless shelter for 100 homeless men near Eastgate Park & Ride and Bellevue College is not for benefits of Eastgate residents and the city of Bellevue as a whole. This decision will increase crime in the area, decrease values of the homes in 1-2 miles proximity to the shelter, discourage people to use buses to get to Seattle and Bellevue College and make the area less attractive for companies to have offices in it and investors to put their money to develop the 1-90 corridor. It's just my opinion, but I think my points are not without any grounds and need to be carefully evaluated.</p>
tiffany smith	bellevue, WA	2016-10-11	I have small children
Cindy Hewitt	Bellevue, WA	2016-10-11	Find a less populated area! Too much risk for our community. What's the plan and staffing resources to monitor and track these men?

Pi Lin Lo	Bellevue, WA	2016-10-12	<p>1. Safety concern - my 2 kids live in here.</p> <p>2. It is ridiculous to build a homeless shelter nearby a forest. It is super unsafe and hard to control.</p> <p>3. We should share the same human right with those live in single house. Government does not treat us equally and already violate the constitution laws.</p> <p>4. Government does not plan it well to minimize the impact of nearby communities. In last outreach meeting, we ask to have dedicate police officer, electrical eyes, and better street light...ect. But all are responded with "To be decided". Government has action to build the shelter very quick, but NO action for the people who live, work in this area. It is not well planed. Please revoke it or postpone it until you are well prepared.</p>
Julia Allerdice	Bellevue, WA	2016-10-12	I and my sisters use the park and ride on a daily bases and don't won't the added danger of known criminals that close to it. At all other locations that these types of shelter have gone up personal and property crime have increased. We also have a large number of families with children moving into the area and this proposal puts them in greater risk.
Bruce McClelland	Bellevue, WA	2016-10-12	We want the neighborhood to be considered as single family residential, because that is what we are despite zoning laws. We have townhomes with no more security that single family detached homes, but at connected in groups o units. We lack any of the external security that most high-rise apartments and condos have.
Matt Williams	Bellevue, WA	2016-10-12	For the stated reasons and also because this shelter is contrary to the development plan that was recently put together for Eastgate
Michael Kutsin	Seattle, WA	2016-10-12	King County residents pay real estate tax which is the source of county budget and must have a say in this matter. As a nearby community resident I do not support this location for a homeless male shelter. Sincerely, Mike Kutsin

cheryl zettler	Bellevue, WA	2016-10-13	1100% share the concerns about locating men with mental health, addition, & sex offense issues in a neighborhood and near a college! Totally unacceptable...
Yuyang Wang	Bellevue, WA	2016-10-13	<p>I am signing the partition to against building Eastgate Men's Shelter. The location selection makes completely no sense. It shows the City totally ignoring the security of hundreds of residential households just next to the proposed location, as well as thousands of Bellevue College students and P&R daily commuters. The City is putting the safety of people, especially of children and women, under obvious threats.</p> <p>Also from the public service perspective, one of the most important purpose of the shelter is to introduce job opportunities to homeless and help them re-employed. Building a shelter in residential area does no help about it, and it will only damage the nearby neighborhoods. Doubtlessly, establishing shelters in commercial area is a much better choice.</p> <p>Here I urge the City to re-evaluate other commercial area locations for this project, and abandon the current plan in Eastgate.</p>

Ovidiu Roman	Bellevue, WA	2016-10-15	It's affecting the safety of the neighborhood and of our children. The area is surrounded by single family houses and town homes, as well as a college.
G Parker	Bellevue, WA	2016-10-16	We don't want another failed social experiment here. We left Seattle to get away from their broken ideas. Since they created policies encouraging homeless camps, property crimes including vehicle and home break-ins have risen dramatically. Once you open this door, you will never be able to close it. Do you really want to create such a negative impact on the quality of life in Bellevue for those who work and live here? Remember, we are the ones who pay taxes and vote here.

4-	Bellevue, WA	2016-10-18	Concerned of safety issue- not only with the students and kids at BC, nearby private elementary schools and parks , but also with the safety of the entire Bellevue neighbourhood. Guns, drugs, crimes, frequent police and fire officers involvement, raised insecurity, lots of garbage and hygiene issue (as already in Seattle area) and so on! Personally, I pass this area at least twice a day to drop off and pick up my kids, and I do not want to feel alerted and insecure every time I pass by. I do have rights to feel safe in the area where I live.

But I do not think the current proposed location is appropriate due to its vacinity to college, P&R and local residents. I urge our city government to learn from our King county leaders and have the shelter set up around our City Hall, which is purchased and enhanced with our tax money. hope that our city leaders and their staff can show us a government of the people, by the people and for the people!!!

Their age ranges from 14-17 years old. Most of them take buses to P&R then walk to campus. Aren't you all concerned that our teenage sons and daughters could be potentially get harassed, robbedDassaulted...This shelter not only stresses the surrounding areas but put more stress on all the parents in Bellevue! Dan Mumma	Bellevue, WA	2016-10-19	I own a house in the area and I have young kids in local grade school less than 2.5 miles away. If there is any chance of sex offenders or mentally ill men living close by I am not comfortable with this and no one should. If you look at the percentage of recidivism for sex offenders it is up near 36%. I understand that we as a society need to find homes for people but there has to be a better place not it walking distance to schools and homes with large volumes of kids.
Eva Lombard	Bellevue, WA	2016-10-19	I am hugely against endangering our the Eastgate neighbor with such a horrible ideal Why should the very citizens who pay the taxes to support sex offenders, drug addicts etc suffer the consequences of this venture! A horrible ideal!

Additionally, it will be less than a 5 minute walk from a college campus, I would be afraid you would be putting the students at risk.

I did not move here 19 years ago to be next to a shelter where some residents are sure to be drug addicted, CONVICTED SEX OFFENDERS, CRIMINALLY INSANE, FELONS, that happen to be homeless too. DO NOT ALLOW THIS TO BE BUILT IN THIS HIGH TRAFFIC AREA, right next to the largest concentration of young, female students from Bellevue College.

Grace Yoshida	Bellevue, WA	2016-10-20	It is really a public safety concern to locate a men's shelter (with no restrictions against drugs, alcohol, criminal convictions) right next to Bellevue college (with students waiting for bus next to it), Eastgate P&R and residential area with young family. I strongly urge the city council to find an alternative site. My observation is that home shelter usually located in city center by city council where public assistance can be easily accessible, and not in close proximity to the youngs.

Sharon Wang	East Brunswick, NJ	2016-10-20	Townhomes are residential homes just like single-family houses are. I am not OK with an unrestricted shelter to be so close to the place I call home, the P&R that the college and my neighbors are right next to, or the busy Bellevue College. There is nothing else nearby that would help improve the lives of these people and it is not an ideal location.

Julian Hurst	Bellevue, WA	2016-10-20	The homeless men won't have easy access to the services they need. The only thing nearby is KC public health. In Seattle the downtown shelters are located adjacent to service providers who can help these addicts, sex offenders and other convicted criminals. Why make it harder for them by making them get on a bus every time they need something. Worksource is up in Redmond. Eastside mental health is downtown. The hospitals are downtown. DSHS and several non profit service providers are up in Crossroads. Probation offices are all near downtown. What Eastgate does have is at least five pre-K and K-5 age schools within a 1 mile radius of the proposed site, including my kids school. Eastgate seems like a poor choice for the shelter's clients and the neighborhood. Downtown Bellevue seems obviously better.

The cornerstone of that concept was transit-oriented development with a particular focus on housing for people working nearby, as well as commuters to nearby cities. S Li	Redmond, WA	2016-10-22	The main reason why I oppose the construction of the Eastside homeless shelter is because it does not solve the underlying root problem of homelessness and mentally ill population. It may even increase more problems and issues in public health since the presence of a homeless shelter will decrease the overall psychological health of nearby populations and residents. Policies should be aimed specifically to support overall public health. Generally, homelessness is caused from economic problems, drug substance abuse, and mental illness. Addition of beds and a shelter does not necessarily mean they will receive the mental, social, or financial support that they need. It will only provide short term benefits, but without any long term, targeted policy support, their problems will not disappear or be resolved.

Placing a homeless men's shelter next door will also put the lives of these women and children at risk. Mitsuyo Miyazaki	Bellevue, WA	2016-10-24	<p>My concern with the Men's only shelter is being put in a neighborhood that increases my risk of being a victim of violent and non violent crimes such as shootings, stabbings, stalking, robbery and rape.</p> <p>Even though our Bellevue police officers are excellent, they cannot prevent any of these crimes from happening under this proposal that puts me at a greater risk of being a victim to these crimes.</p> <p>We haven't had any violent crime in this neighborhood. It's currently safe enough where a single woman can go for a walk early morning or/and evening by herself. I am against the Men's only shelter in our neighborhood for these safety reasons.</p>
Walter Pon	Bellevue, WA	2016-10-24	<p>The safety concerns and negative impact to both the local residents and students of Bellevue College cannot be overlooked. I understand that there will be no definitive solution to homelessness short of national reform, however this short-term solution I believe comes with too high of a price to both life and limb when it comes to the welfare and wellbeing of the students and residents of this neighborhood community. There are already homeless camps in the forest area just North of the park and ride and I foresee this Men's shelter being a catalyst of creating a larger negative impact than anticipated should it be established in this neighborhood. Never mind the fact that more cars would be broken into at the park and ride, but think about how dangerous it would walking to your car by yourself at either Bellevue College or at the park and ride at night in the winter time when it's dark outside at 5:00pm. The Bellevue City and King County planners who proposed this needs to put their names, reputations and consciences on the line should the unthinkable happen like we all know that will should this go through.</p>

Tzachi Litov	Bellevue, WA	2016-10-25	I'm signing because I don't believe this is an appropriate option or by far the best option we can do!
Theresa Morgan	Bellevue, WA	2016-10-25	This is not a good place for a low barrier homeless shelter. Too many child centered activities in the area, too close to residential areas. Also, mentally ill people WILL be roaming around. Their behavior cannot be guaranteed.
Jeffrey Goodis	Bellevue, WA	2016-10-25	I believe this effort will have the opposite effect of what it was meant to do. This will do little or nothing to reduce the numbers of homeless, especially those who have no desire to change their lifestyle. About 75% of the Seattle "jungle" residents refused for months all offers and efforts to be housed or undergo drug rehab or other help before the tent community was forcibly dismantled and removed. There is no reason to believe this men's shelter will be any different. Are we all ready for open drug dealing, needles on the sidewalk and tents and shootings in the parks nearby? Is this what we want to become of OUR beautiful Bellevue? Is this what we want our children exposed to? Doing this is good-hearted but very short-sighted; like feeding the beast which will later devour you. I reject this shelter completely. I would support a drug addiction rehab facility instead.
Joan Clare-Harris	Bellevue, WA	2016-10-25	This is a very bad location for such a shelter!
Meredith Swezey	Bellevue, WA	2016-10-25	A low barrier shelter is completely inappropriate for this area. Putting a shelter with no apparent restrictions on the individuals who would be living there is beyond comprehension. We do not need nor want drug users, alcoholics, and sex offenders added to our neighborhoods. This will cause untold damage to many residents lives. Please do not trade our safety for criminals desires.

Brendan Liu	Seattle, WA	2016-10-26	With all the wise people in the city government, how could they end up proposing to locate a men's shelter next to Eastgate P&R?! Common sense tells the shelter should be located next to City Hall. It is far more conducive to commuting - Bellevue Transit Center is just a few steps away and has more bus routes than Eastgate P&R. Don't forget Light Rail is coming in 2023! For those attending Bellevue College, Metro route 271 goes right inside the campus every 7 to 15 minutes from the BTC. There would be no hill climbing from Eastgate P&R. For health care services, Overlake Hospital is within walking distance 2417. Everyone should know that Downtown Bellevue has many more job openings and opportunities than the Eastgate P&R area creating the targeted goal of a livable and walkable community. As far as public safety concern, Bellevue police is right there next door. Homelessness is an urgent need; the City and County can easily put up 100 beds that they propose in any newly built apartments building in downtown Bellevue. There is no waiting and no need to spend millions of dollars to build new infrastructure.

Perhaps next to City Hall since it's in a mostly industrial area of town. We also must have more time to explore this, this has been brought to our attention much to late in the game to be able to address the concerns. Please also make this more public. Diane DeNure	Bellevue, WA	2016-10-27	I don't believe that this is a good location for the shelter. It is too near a day care facility, a college, two hotels and residents with small children and the elderly. I am also upset with the fact the none of the local residents were allowed to vote on this location or any others. I was much happier when it was being considered for multi use with both residents and shops being considered for use in the area. I am not looking forward to the added crime and debris (garbage, needles, alcohol, etc.) that will spring up in the area. There has to be a better location than what they have chosen.

jearen ju	bellevue, WA	2016-10-27	It is really scary suggestion to build a shelter near Bellevue College and Eastgate. As a resident° I am totally concerned about security and crime rate. There are a lot of kids and young adults live around who could be easily influenced. Bellevue is supposed to be the best and the safest place to live inEI but right now with the drugs and homeless shelter° I am disappointed about it

Terry Sinclair	Bellevue, WA	2016-10-27	<p>We do need to be compassionate and help those who need a home. But this location is what I strongly object to. Yes, we do need a safe place for the homeless men of King County and Bellevue... but this particular location is not a good one for this type of low barrier homeless shelter housing 100 single men.</p> <p>A low barrier shelter allows drug users and sexual predators to be there as long as they 'behave'. There is a difference being idealistic and realistic. I think this applies to an area where there are possibly 100 men living in a low barrier shelter in one spot. It just is not safe for those who live and go to school in the same area.</p> <p>There are college students as young as 16 going to Bellevue College, a large campus with forested areas and large parking lots. As a low barrier shelter it allows some on drugs and sexual predators as long as their "behavior" is at a certain level. Please be fair to all and realistic--not all behavior of the clients will be on that certain level.</p> <p>After several other recent proposals that bring down community values, such as adding marijuana stores, more high tension lines, and other re-zoning assaults, to now have this shelter that will allow a group of 100 homeless men, some of whom may be sexual predators and some who are allowed to be on drugs all living too close to an established family oriented neighborhood, is yet another insult. Is Eastgate /Factoria the only area there is for all this activity? This is one sided I agree wholly the homeless do need a shelter and safe place but I see this shelter location is perfect only for the clients of the shelter. There needs to be fairness and common sense allowed here as well. It is not safe for the surrounding community. It is not fine and good for the adjacent community (too close to family neighborhoods, children and schools). A different location would be fair to both parties. I would not feel the same if the shelter were for women and children.</p> <p>Thank you for the opportunity to say what many feel.</p>

Ann Hendricks	Bellevue, WA	2016-10-28	Bellevue residents have sacrificed and continue to sacrifice a LOT of their effort, time, and money to find housing here, because it is a SAFE city. If City Hall screws that up by housing people with very unsafe histories (addicts and especially sex offenders--really?!), it's extremely unfair to resident sacrifices and choices to be in this city. And Bellevue's reputation and reality as a safe city will be gone. Why should high-threat-possibility homeless be housed free in a city that the rest of us have to work our butts off just to try to stay in? Low-threat homeless, sure, housed properly and with dignity (like via Hopelink's work) but not people with known dangerous histories. And especially not so near so many families.

Janet Lin	Bellevue, WA	2016-10-28	This would complicate this area and possibly increase crime rate where there are many schools for young children.
Kyle Thomas	Bellevue, WA	2016-10-28	Because this proposal is going to bring mentally ill, sex offenders, and drug users into an area that people have worked very hard to be able to afford to live. There is a large safety concern having this group of people, along with the people the follow this group next to a busy college, and a park and ride used by young professionals at all hours of the day. I'm signing this because my pregnant wife used to use that park and ride to ride to work in Seattle. She no longer does because once the bus ends in Seattle, she has to walk through the homeless encampments to get to work and has been harassed and threatened. We don't need that kind of risk in our neighborhood. We don't need the physical trash that comes with a homeless area either. Have you been to Seattle recently? It looks like a dumpster and is an embarrassment to the people that call the PNW home. We've had Tent City 4 in Bellevue a few times over the last few years. Every time TC4 comes to town, there is an increase in neighborhood crime, everything from car prowls to drugs to trespassing and breaking and entering. There is also a HUGE safety risk to the citizens of this area who have worked very hard to be able to afford a life in a "nice" area. Living in a "nice" area is a privilege, not a right. This homeless shelter should be put up either in city hall or right next to it, where the services that these people need are able to be provided without an impact to the residential neighborhoods of the area.

Carly Nelson	Bellevue, WA	2016-10-29	I feel compassion for the homeless. But putting a shelter right next to a heavily used park and ride would make people (especially women who travel alone) afraid to walk from buses to their cars after dark. It seems very wrong to drop a homeless shelter into the middle of a middle class, residential neighborhood to begin with. The problem of homeless is a serious and complicated one, but let's not invite the problem into our neighborhood to a greater extent than it exists today.
Jennee Guerrero	Bellevue, WA	2016-10-29	We have small children (4 and 1) and we live right behind the Bellevue College Baseball field. We are not comfortable having, addicts, sex offenders and convicts in our neighborhood. Common sense tells anyone that a better location for everyone involved, including the homeless is downtown Bellevue. There is a lot more to offer, jobs, health care, the police station(security) right in the downtown neighborhood. The men's shelter should not go in next to <i>the</i> east gate park and ride! Homelessness is a problem that needs to be addressed but with all parties involved in mind.

I also believe that the risk for petty crimes and burglaries will increase. I see this shelter as a band aid approach to the problem of homelessness. It fits what they are looking for: "Factors for this site include public ownership, proximity to good public transit, access to services and its outside single family neighborhoods," Moreover, while this is ostensibly for 100 <i>men</i> , any number of people can show up throughout the day for their food service. Also, this will surely be a magnet for more people to camp out in the surrounding areas.

Concern about possible effects of a facility of this type will have negative consequences on the surrounding communities.
Wenduo Wang	Seattle, WA	2016-11-02	We just purchased a house located at Bellevue, Seattle 98006, which is very close to the proposed shelter area. The primary concern is our upcoming life could be greatly changed by the increase of low-educated people around. It prompts us to take additional attendance of children and life above normal at the cost of work-life balance. It is the government's responsibility for inducing homeless people to realize the importance of working to make personal value higher and get rid of poverty, instead of sacrificing the comfortness of residents to settle them down. In another words, We residents could provide grand assistance for government in educating homeless people to make value, but should not directly provide convenience for them for no return, which is so called "life value exploitation".

If you are opposed to this you <i>need</i> to seek out and ally with organizations like CENSE (Coalition of Eastside Neighborhoods for Sensible Energy) at (http://cense.org) The only thing City Council listens to is the ballot box.
Daniel Huang	Bellevue, WA	2016-11-03	I urge the city publish the evaluation report on all 14 sites mentioned. Downtown by city hall is definitely a better site than Eastgate. I guess the city government is afraid of opposition by the downtown businesses. Or maybe they have association with the downtown businesses.

Noah Litov	Bellevue, WA	2016-11-03	I am concerned about the safety of the neighborhood I did much of my growing up in. I'm not worried that they are putting in a shelter on principal. In fact, I would be very much in support of a shelter... If it were not a low-barrier shelter. This will allow and not discourage sex criminals and potentially volatile active addicts from staying in the neighborhood. Whets more, its located adjacent to both BC, an elementary school, and a major park and ride. I dont at all want to impede the process of rehabilitating the homeless in the area, I simply dont think that a NO-BARRIER shelter is worth the risk or the added fear. That won't help anyone.

Heather Van Schoiack	Bellevue, WA	2016-11-04	As a frequent user of the P&R and a Continuing Ed student at Bellevue College, the location of this proposed homeless shelter is a direct threat to me. In 2005, a woman was killed by a homeless person in the vicinity of the proposed shelter; we should not increase the danger for the tens of thousands of people like me who are using those facilities. I already feel unsafe in those areas at night (poor lighting, lots of trees/places to hide), and this will just make it worse--and will make me reconsider whether I should be using either facility. The City of Bellevue should be more proactive in ensuring that people in the vicinity of this proposed facility have advance notice--and the opportunity to provide comment--before the decision is made to move forward with the project. So far, that hasn't happened.

Annie Wang	Bellevue, WA	2016-11-04	For our children's safety, the community should join together to be seriously against this action. We should live in a city where our kids can walk home from school without having to worry about their safety. This will be detrimental to the community's safety and well-being. For our society's safety, we cannot allow this.
Ruth Johnson	Bellevue, WA	2016-11-05	I was born in Bellevue, grew up in Bellevue, and now that I am married, I have returned to Bellevue to start my family. I love this city. I also have a lot of sympathy for the homeless, and spent the past several years volunteering weekly at a homeless shelter. Despite all of this, I wanted to express my strong objection to this development. This is not the right place for a low-barrier emergency men's shelter, given the number of children, schools, retirees, and residential homes in this neighborhood-- not to mention the lack of recreational and food establishments within walking distance to service the shelter. The City's shocking lack of transparency to the stakeholders has exacerbated the situation. There have been multiple attempts, including in the Seattle Times, to insinuate that this will be a family shelter (which I would have supported) or a shelter with some sort of background checks (which I would also have supported). This entire process has been negligently handled at best and disingenuous at worst.
Genesis Raze	Burlington, NJ	2016-11-05	This is not the right location for such a shelter. It will be a threat to the whole area.
Joanna Clark	Virginia Beach, VA	2016-11-05	Transparency is vital to the safety and security of our neighborhood.

Carolyn Kessler	Bellevue, WA	2016-11-05	Data in other communities with such shelters show that the areas surrounding the shelters become more crime-ridden and unsafe. Surely there are other potential shelter locations on the Eastside that do not impact neighborhoods the way that the Eastgate shelter would. Thank you for your consideration.
Gayle Brown	Bellevue, WA	2016-11-05	I am concerned about the safety of children and elderly people in the near vicinity of this shelter. I don't like the ability of politicians and city council members having the ability to change zoning laws, and place structures like this in our neighborhoods against our will. The homeless may soon take over our public parks and libraries, where many children are.
Sarah Espinoza	Bellevue, WA	2016-11-05	For the safety of my family and myself. As well as the many other families that have young children. Jeopardizing or what little safety we do have and make it worse. How does that help the community?
Joy Pattie!	Bellevue, WA	2016-11-05	I think that the concentration of homeless people with medical, mental and social issues is too strong for the community to absorb. I think smaller groups are better for the homeless and will give them an opportunity to become a part of Bellevue society. It would be easier for the community to accept them as well. I assume that the 100 residents will be a revolving door and it is just too much to deal with. If a building is built with the specific purpose it will be very difficult to abandon it if the project doesn't work. I suggest group homes are a better model. I think it is better for the homeless to become part of normal society rather than being stigmatized by the 'homeless shelter'. I vote NO.

We could have been part of the process of identifying a solution that did not threaten the safety of our residential area, schools, parks, and commuter college. Give us a chance to reconsider the options. In the meantime, tell us what other sites the City considered behind closed doors. Where is the information on those options?

Laurie Nakamura	Bellevue, WA	2016-11-07	I work near by and in the winter it gets dark and I feel unsafe as it is, walking to the P & R by myself. There are College kids plus Running Start High School kids near by and it's not safe for them either unless the City of Bellevue intends to have security 24/7. And with the Low Barrier Men's Shelter, I feel this area won't be safe. This is an isolated area unless you have transportation, the buses do not run frequently enough and it's not easily accessible. It would be better suited if the City Council would build the Shelter closer in the City where the men could easily access activities. I know all people aren't bad but don't forget, a homeless man murdered a Mother of 4, between the pathway from Bellevue College and the Public Health Dept.
Julie Kelly	Bellevue, WA	2016-11-07	We have enough issues with the expanded college and single family residences treated as communes. The infrastructure in Eastgate can't support more residents. It takes me 25 mins to go 2 miles in the evening.
Emi Kang	Bellevue, WA	2016-11-07	I do not think this plan is appropriate for such an education-focused area. Rhonda George	Renton, WA	2016-11-08	I work at a dance studio that is very close to this location, with hundreds of young dancers; and having a men's shelter that close would be very dangerous for the safety and well-being of our dancers. Yi Zhang	Bellevue, WA	2016-11-08	Has the government considered other locations? Shouldn't the men shelter be located in downtown? Considering the loss in safety and property value, it might be worthwhile to file a lawsuit if the city is not going to change the plan anyway.

Jackie Rudasics	Bellevue, WA	2016-11-09	My kids have to pass through the Eastgate Park and Ride on their way to and from Sammamish High School. My son has already had to witness drugs on the bus. I have a cousin who has scizophrenia and when having an episode, runs from family and chooses to be homeless. The laws protect his privacy but don't protect his mother who has to fight the system to get him to take meds. She said that the hardest thing she's ever had to do is after finding him, having to leave him back on the streets because the laws "protect" his rights but have made things worse for him. She feels that shelters enable him to refuse her help. Also, my son lives at the UW, and says there are needles on the streets near the dorms from the homeless that live on the Ave. Also, I have a friend whose brother chooses to be homeless from time to time that I see on the corner of Eastgate and 148th due to his choices to use his government check on drugs according to her. Instead, I would propose Bellevue build more low/no income housing to permanently house our homeless. A homeless shelter, especially in a city where marijuana is legal, invites mentally ill people to the state (my cousin is from Florida and came to Seattle). Please also remember the murder of the Spiritridge mother that occurred in that location years back. Bellevue College already has enough problems.
Julie Wheeler	Bellevue, WA	2016-11-09	This is not an appropriate site for a low barrier homeless site due to the proximity of young children in schools and residential neighborhoods. Also the park and ride parking lot will no longer be safe for women walking alone. We need to help the hornless, but it needs to be done in a more industrial location.

Julie High	Bellevue, WA	2016-11-10	Homeless shelters belong in dense downtown areas, not neighborhoods. In a downtown setting, the shelter has better likelihood of success due to the proximity of the transit center, the police, hospitals and other services. Safety is less of a concern, too, since there are more people around. Homelessness is a societal issue we must address, but putting sex offenders and drug addicts near our park and ride, our college campus and our homes is not the way to address it. City Council needs to find spaces this type of facility in the downtown core with a wealth of services and oversight are available. Bellevue tends to pander to commercial developers, which is great for a thriving downtown, but City Council and developers must also acknowledge it is also the appropriate place for homeless shelters, not outlying residential areas.

Christopher Carlin	Bellevue, WA	2416-11-12	Enough is enough. Get a handle on the crime you have before importing more. Enough is enough! I vehemently oppose this plan, and the city has done insufficient research to even contemplate this. These shelters DO NOT WORK ; they attract more homeless and make the problem worse. Furthermore, these residents will intentionally NOT be VETTED, meaning the worst of the worst will end up here (because they'd be vetted out of other locations). Eastgate P&R is used by students from Bellevue College and residents in the community. There are female students and girls as young as 13-year old taking the bus especially during the summer time. Their safety is a huge concern. It appears that the City may not have done the full analysis of the potential impact to the community by placing sex offenders, addicts, or mentally ill homeless men in this area. Kelly Miller	Bellevue, WA	2016-11-22	I attended BC and I am now a mom. I would fear for my safety and anyone else's safety if they attend BC. Definitely not letting any of my family attend this school if this men's house goes up
Paul Zhu	Bellevue, WA	2016-11-22	People should work to earn a place to live.
Curtis Hanner	Bellevue, WA	2016-11-22	The risks to the students of Bellevue College. The risks to families living nearby. The fact that this is a low barrier shelter serving all of King County.
Nancy Starkman	Bellevue, WA	2016-11-23	Home values will go down. This should not be near families and children, because we have no idea who these people are. Homeless persons range from nice people down on their luck, to sex offenders and the mentally disturbed. Since those down on their luck are more likely to seek and find help, that leaves the rest of the population in a homeless shelter to have more questionable backgrounds. No thank you!

Steven Robbins	Londonderry, NH	2016-11-23	<p>I'm signing because there are NO men's shelters - every dollar goes to women. When a woman loses her home, she goes to a women's shelter and gets hot food, a place to sleep and counseling.</p> <p>When a man loses his home, what happens? Where does he go? He sleeps on the streets with drug addicts and prostitutes. He gets mugged or even killed.</p> <p>Why don't you put some of your so-called female compassion towards men (or do you hate them too much?)</p> <p>Surprise! Women can have mental health and addiction offenses too! As for the sex offenses, it depends on whether it's Level 1, 2 or 3.</p> <p>So the only thing you care about is women, women's shelters, female students and to hell with men. After all, we're just wallets with legs, right?</p>
Joy Paltiel	Bellevue, WA	2016-11-23	<p>The city and county have not allowed input from the community. It seems that no one has looked for more creative effective approaches from other cities in the US, Canada, Europe (or anywhere else for that matter) that have worked to get people the help that they need. For people with addictions... housing is just part of the problem. Homeless vets have other issues of a medical and psychological level. This housing if able to provide help on many levels to those who are committed to rehab would be welcome. The groups of people who are not screened are not welcome. I do not want to see scores of homeless walking the streets without purpose panhandling on street corners. I do not want to see Bellevue attract more homeless from across the country to take advantage of Bellevue's hospitality. I do not want to see homeless people urinating and defecating on the streets. We do not have anything to offer them and they will only take away the quality of life that Bellevue has worked so hard to establish and maintain. I would like to know why we have been given the most difficult population (men) to house. Can we not have smaller housing units with some women. Another for families as well. I don't like the concentration of people with addictions to drugs and alcohol, sex offenders, criminals and 19 year old buys sharing the same facility. These people are difficult at best and even tent cities won't accept them. I do not want to see an increase in violence or criminal activity in this area. Other King County towns have had horrible experiences with this kind of shelter. On another level... we, the taxpayers are bound to payoff increased police protection, courts, and god only knows what is in store for us. If we accept this housing in our neighborhood it will be forever changed. It will define everything that happens here. Some will have fears of walking to and from the transit center in the dark. There goes that. Those with kids will be concerned with their kids being exposed first hand to the ill of society played out in the streets. And the list goes on. There are too many unanswered questions and the group who are going to be charged with running it seem to have rose colored glasses boasting about 20% success rate in getting people off the street. Where are the other 80%? That is not good enough for me. I want better, well thought out answers. I would support a program that involves people who have the capacity and the desire to join mainstream life. be the first one to support and encourage them. The plan as planned is a disaster waiting to happen and we all (residents and city government) won't know what hit us until it is too late. There issue needs to be addressed by many people, organizations and the government all st the same time. We also need to know what this is going to cost in terms of increased taxes. Decreased property values. And quality of life.</p>

Renee Green	Bellevue, WA	2016-11-23	I don't feel safe with this situation. Live by a park and to many kids play without parents.
Yella Appleby	Bellevue, WA	2016-11-23	If this was a shelter requiring that the men be sober, not offenders and seeking employment or have a job that would be more feasible than this low barrier option. I'm opposed to this because if the safety risk to college students and bus riders.
FIKKOJlari CaCIDOHOB	Bellevue, WA	2016-11-23	Similar housing in Ballard has increased the 911 calls and problems in that neighborhood considerably. I do not want this facility near us. Crime rates go up for sure.

Aileen Wu	Bellevue, WA	2016-11-23	Downtown is a much better location where everything is within walking distance and public transportation is convenient.
Matthew Rahmann	Bellevue, WA	2016-11-23	I don't want a homeless shelter so close to my home particularly as a low bar for entry location. I have three young children who I don't want to be at risk. This will also effect my property value and will have a significant impact on the collage (I have already seen a number of homeless people in the common rooms over there even before this site is constructed).
Lydia Chan	Bellevue, WA	2016-11-23	I have 3 kids and I live in close proximity to this site and I feel that it would put my children's lives in unneeded risk as well as having potentially decrease my property value. I also feel that it will have a negative impact on the college as I have already seen several homeless people who were not students and I feel that this is sure to become a problem with a large group of male homeless people in close proximity particularly as this is a low bar entry shelter.
Sanchez Steve	Bellevue, WA	2016-11-23	Mixing drug addicts, sex offenders and people with outstanding warrants next to residential communities and schools is irrational.
Wendy Wiley	Bellevue, WA	2016-11-23	The proposed location for the Homeless Men's Shelter It creates a dangerous environment for young women and children. It is too close to apartments with children and to Bellevue College.
Maria Lim	Bellevue, WA	2016-11-23	I'm signing because I have small children and I am scared of the shelter housing men's.
EkaTepma bagaeaa	Bellevue, WA	2016-11-24	i am concerned about safety of my kids who go to BP school in Bellevue.
Jerry Liu	Bellevue, WA	2016-11-24	My family, particularly my grandmother currently resides at my address. It would significantly impact and endanger my family if the shelter were to be built in close proximity of my address.

Kevin Bartels	Bellevue, WA	2016-11-25	I am a proponent of building a facility to help these people in need. The majority of these folks struggle with some level of mental illness whether born with or having abused drugs / alcohol for a oeriod of time. I can speak to this as I have a very close family member who currently has mental issues brought on my years of abuse. He / we never thought that his disease would progress to <i>the</i> level of where it is today. He has a good heart and is a good person but cannot function properly. He doesn't physically hurt people nor does he harass others. I have seen him give his last dime to another homeless person! This position in life leads to hopelessness and despair...where does one go for help? Where do they go to lay their heads and feel a sense of safety and comfort that we call our homes? These people need help. Now, with that said, we do need to be real here. Sexual predators / offenders cannot be located by families / schools / transportation, etc. there is zero tolerance for this behavior and should NEVER be rewarded! I purchased my home in Bellevue because it was a safe & trusting community. How can I / we possibly sanction a Low Barrier facility near such critical spaces of our community. I task the Bellevue City Council to identify a better location closer to warehouse / manufacturing jobs that these folks may have an opportunity to secure.
Dollyanna Emerson	Bellevue, WA	2016-11-25	I love and use our parks....with children and grandchildren. I've already experienced the havoc the homeless make...from garbage to looting...drugsand bodily elimation on the trails and sidewalks of our neighborhoodtry compassion and help. they dont want it..
PunWong	Bellevue, WA	2016-11-25	I am totally against this development, this will create unsaved environment for the neighborhood especially it is near the East Gate P&R and Believe College. Potentially it will create additional violence and crimes within a busy location.
Ilga Krastins	Bellevue, WA	2016-11-25	Because of safety concerns for the neighborhood.

Edward Simpson	Bellevue, WA	2016-11-26	Everyone needs help from time to time. Furnishing a rut for anyone is entrapment and enablement. We need a program that will produce responsible productive members of society. We do not need a place where men are allowed to continue down the path of self destruction. To do so renders one just as useless as the other. I don't know all the answers, I do have 27 successful years working on the answer. should you feel the need for down to earth dialog I will make myself available to you. More will be revealed. Jackiec Corulli	Bellevue, WA	2016-11-29	I am against this facility being placed in this neighborhood. Nothing positive will be gained from this. This semi residential area is not an appropriate location for this type of housing.
Anna Whitfield	Sammamish, WA	2016-12-02	I believe this is not the right location for this type of community service. A different location toward city center needs to be found, not so close to schools and our minor population who is not prepared and experienced to meet up with an adult living in this situation.
Anna Whitfield	Sammamish, WA	2016-12-02	A shelter is needed but it needs to be in the right site, right size and right rules. The proposed location is smack in the middle of 10+ schools and many residential areas and parks.
Dk Lane	Bellevue, WA	2016-12-03	This is unsafe for all residence, and perhaps they should build the low barrier men's shelter next to those that voted to have it built. Tired of those that approve these type of structure and not be effected
Peggy Marinovich	Bellevue, WA	2016-12-03	I am against a low barrier homeless shelter at this site. Actually, low barrier homeless shelters are not a good idea period...high risk for everyone involved. I live nearby and really don't want this homeless shelter near my home and the many children that live in the neighborhood. There are already enough homeless, drunk, living in Weowna Park (I live across the street from this park) and it isn't patrolled by police. I no longer feel safe walking alone there. Also, the Eastgate P&R is not patrolled and it needs to be already...empty broken bottles, vomit in the stairwells...etc. The shelter would make it much worse. I am opposed to this proposed shelter for many reasons, some stated above.
Mark Brinton	Bellevue, WA	2016-12-05	I am against locating such a facility anywhere in Bellevue.
Dorothy Chandler	Bellevue, WA	2016-12-06	Too close to residential. Too close to college. Too large of a facility, for this neighborhood. Needs to be in remote area away from families. Too close to park and ride for vandalism to parked cars.
Michelle Boulot	Bellevue, WA	2016-12-07	I'm signing because I have 2 daughters who frequently use the trail systems for fitness. I also use the trail system for fitness and I am concerned about the safety of my family.
Kelly Farrell	Bellevue, WA	2016-12-07	Knowing that there is going to be drug abuse, do not think it is a proper location for a homeless shelter. Also, I do not like the idea of this being a regional shelter.
Penny Olson	Bellevue, WA	2016-12-13	I'm concerned that the location of this shelter is inappropriate, as it close to many residences with families and close to Bellevue College.
MaryBeth John	Bellevue, WA	2016-12-14	I'm signing this petition because I do not believe this is the appropriate place for a low barrier shelter; feel there are no safeguards in place for the area residents, and feel that the CoB has not done due diligence in researching appropriate sites, has not communicated effectively with CoB residents about motives for choosing this site, especially those impacted by siting the shelter in Eastgate, and have chosen a site as far away from downtown as possible so high end, wealthy residents don't have to deal with it.
Conces Dan	Bellevue, WA	2016-12-17	Bellevue City Council better wake up and stop acting like big sister Seattle. Research and find a low impact site away from schools and neighborhoods, and close to law enforcement.
Ed Bomke	Bellevue, WA	2016-12-17	The shelter will be a magnet for those who will cause security and behavioral issues 24x7. Car prowls will be likely in the adjacent, unsecured P&R garage,
tine mckimson	Bellevue, WA	2016-12-19	Very concerned about the influx of crime into our neighborhoods.
Jie Zhang	Bellevue, WA	2016-12-22	It is the wrong place for this type of low bar shelter

Bjorn Hansen	Bellevue, WA	2016-12-23	While helping homeless is laudable, the choice of location, next to families and an important school is hard to comprehend.
Kim Weber	Bellevue, WA	2016-12-29	I am signing this petition because I feel this shelter will increase crime in our neighborhood. I will increase the amount of homeless in the area and attract more homeless population.
Phyllis White	Bellevue, WA	2016-12-30	Bellevue is the wrong place for a low barrier shelter. I am signing this because I feel a low barrier men's shelter will attract more crime including drug trafficking, loitering, and more homeless. We live in a somewhat pristine city without an abundance of affordable housing. As a result, Bellevue is at risk to attract the highest at risk homeless population and become another Portland, Oregon or Seattle. It would make more sense, to build a low barrier homeless shelter in a city with more abundance of affordable housing and a city that has jobs available for this homeless population. If the low barrier homeless shelter is built in Bellevue, a city with little affordable housing and availability of jobs for this population, Bellevue will be housing the low barrier homeless with very few positive outcomes. It doesn't make sense.
Dorothy Giansiracusa	Bellevue, WA	2016-12-31	I am signing because I fear for my safety when using the Eastgate Park and Ride.
Robert Giansiracusa	Bellevue, WA	2016-12-31	I am signing because it is unfair to the people who live near the proposed shelter.
julia Kramer	Bellevue, WA	2017-01-03	This shelter puts our kids in danger
Mark Bi	Bellevue, WA	2017-01-06	I am very concerned about its closeness to P&R and BC. Also my kid goes to a sports club nearby. I am concerned about her safety. The location is not appropriate
Heidi Brantzeg	Bellevue, WA	2017-01-09	A low barrier shelter in this location has the potential to be very dangerous to people who use this area. Commuters and students often use this area very early in the day and after dark. Please either make it a medium barrier shelter or re-consider location.
Nillofur Jasani	Bellevue, WA	2017-01-10	A homeless men's shelter will cause many problems in a residential/school area - we will put our children at risk.
Cheryl zettler	Bellevue, WA	2017-01-10	VERY close to ==> residences- YES, Town Homes ARE residences! Popular park w/i walking distance. College with dorm & classes day & night (which include MANY 14-17y.o. students taking college courses!) Park & college in beautiful, wooded setting- hard to patrol. P&R nextdoor- already scary. ZERO community involvement in planning. ZERO due diligence research of comparable LARGE, LOW-BARRIER programs for homeless men elsewhere that show (1) effectiveness vs failure for clients AND (2) impacts on surrounding constituents / neighbors! the time for planning AND RESEARCH is BEFORE this huge project is undertaken, as damage to surrounding constituents cannot be undone!
Iris Li	Bellevue, WA	2017-01-11	There are many schools nearby, and many young students walk cross around daily, it will impact whole community, Why not build it next to Bellevue city hall?
